MAYO CLINIC

SCHEDULE YOUR APPOINTMENTS ONLINE

Many appointments can be scheduled online using the Mayo Clinic patient portal. Online scheduling offers a quick and easy way to manage your appointments.

Get Started

To begin online scheduling:

1. Log in to your patient portal account through the Mayo Clinic app or by visiting mayoclinic.org/onlineservices.
2. Select “Schedule an Appointment” in the “Get Care” section.
3. Review the list of appointments available to schedule.
4. Select the appointment you would like to schedule.

5. Follow the instructions to select the location, time, and date for your appointment. There may be additional questions to answer based on your selected appointment.

6. Select "Schedule" to complete online scheduling.

7. Check the "Appointments" section of your patient portal account to verify that your appointment has been scheduled.

Occasionally, the appointment you want to schedule might not appear in the list of available appointments in your patient portal account. To schedule an appointment that is not listed, go to the "Appointment" page in your patient portal account and click the "Get Help Requesting an Appointment" link. There you will find the scheduling number for your care team's location.
