- Ostomy Supplies
- Urologic Supplies
- Walkers/Wheelchairs
- Wound Care Supplies
- Compression Garments*
- Personal Emergency Response System
- Hospital Beds
- Wigs and Accessories*
- Personal Protective Equipment (PPE)

* Personalized services available for indicated product categories

Claims

We are in-network with several insurance companies, which allows for a higher level of benefits than when receiving equipment and supplies out-of-network. We can also file a Medicare claim on your behalf, for supplies with a doctor's prescription.

Rental

Mayo Clinic Store offers several items to rent, some of which customers have the option to buy. Products in this category include breast pumps, cervical traction devices, TENS units, CPAP machines, hospital beds, wheelchairs, scooters, and Lifeline.

Personalized Fittings

We provide personalized, confidential consultations in a private fitting area with our caring and dedicated staff. Certified fitters help ensure that you find mastectomy or compression garments that will meet your needs. To ensure sleep comfort, CPAP machines and mask fitting services are provided by highly trained technicians.

Mail Order Service

Mayo Clinic Store provides fast, discreet shipping, as well as superior customer service. All home care supplies are shipped in unmarked packages, right to your doorstep. Most products ship the same business day that you place your order. For additional convenience, ask us about our refill reminder service.

CPAP

Our primary goal is to provide our customers with the training and education to use their new sleep apnea equipment and supplies successfully. After your equipment is personalized and fit to your needs, we will teach you how to properly use your CPAP machine and mask interface. And we are always here for additional support if you need it.

Warranty & Repairs

Mayo Clinic Store will help customers with manufacturer warranty and repairs on equipment purchased from our locations. Our dedicated team is happy to assist with service and replacement products, or parts for your durable medical equipment.

Solutions for Healthier Living

Proceeds from products purchased support medical education and research at Mayo Clinic.
