

Nicotine Dependence Center

Intensive Tobacco Treatment Program

The program is 5 days from Monday through Friday. Services include medical assessment and daily medical follow-up, medication assessment and treatment, individual and group counseling, educational sessions to help with stress management, relapse prevention, wellness activities, tobacco related health education, and sessions to assist family members and other significant others in helping in the recovery process.

Below is a list of CPT Codes and service descriptions provided to patients in the Nicotine Dependence Center Intensive Tobacco Treatment Program. You may wish to check with your insurance for coverage. The total estimated charges (before any insurance payment) is \$5300. This is an estimate of the total cost of the program. Final charges may be more or less depending on individual circumstances. You will be expected to purchase medications needed for your treatment during the 5-day program. These can be brought with you or purchased locally. You can contact your medical insurance company to discuss reimbursement for these services and procedures.

An internal medicine provider oversees the care of all patients in the program and each person is assigned an individual counselor who is certified as a tobacco treatment specialist.

Itemization and Description of Services/Charges

This list outlines the usual services and procedures provided during the program by providers and allied health staff of the Mayo Clinic Nicotine Dependence Center.
