

## Study Participation Opportunity

# Breast cancer, Reasoning and Activity INtervention (BRAIN)

Mayo Clinic is seeking breast cancer survivor volunteers for a research study. The purpose of this study is to compare a 6-month exercise program and a 6-month health education program on cognitive function.

### You may be eligible to participate if:

- You are a post-menopausal woman who has completed treatment for Stage I-IIIa breast cancer within the last 24 months.

### Your participation will include:

- Participation in an exercise program or health education program for 6 months
- Total study participation will last 12 months
- Completion of an exercise test, MRI brain scan, brain games, and questionnaires
- Wear an activity tracker for the duration of the study that is yours to keep
- Receive 6-month membership to a community fitness center
- Receive payment for your time spent at data collection visits

For more information, contact a member of the study team at [arzbrainstudy@mayo.edu](mailto:arzbrainstudy@mayo.edu) or call at (480) 574-1369.
