Relocating to Your Mayo Clinic Site

Overview for Physicians, Scientists, and Executives

Relocating for a new career can be stressful. Before starting on your first day, there will be a great deal that needs to be done, both personally and professionally. Undoubtedly, the task of moving can be a challenging one. Our goal is to make the process stress-free and enjoyable for you and all that accompany you to your new home.

HIGHLIGHTS

- Mayo Clinic has partnered with multiple moving companies from which you can choose. All moving companies have been approved by Mayo Clinic for their quality and service.
- Your move package includes the full cost of packing and unpacking ordinary and necessary items needed to establish your home, including the taping or tying of owner-packed cartons. Mayo Clinic will pay for crating as deemed necessary by the mover.
- **Your move package also includes the shipment of up to two automobiles.**
- **Out of pocket expenses within policy will be reimbursed for house hunting and the final travel associated with relocating.**
- Our Mayo Relocation Coordinator is available to support you by providing answers to your questions, guide in understanding the process, and advocate for your best experience.

CONSIDERATIONS

- Are there others that will be accompanying you to your new home?
- Are there any barriers that could prevent you from relocating?
- Do you feel like you (or designated other) would rather be more involved in the move or have someone else to manage it?

For further information please contact your recruiter.
