

PATIENT EDUCATION

Welcome to Developmental and Behavioral Pediatrics

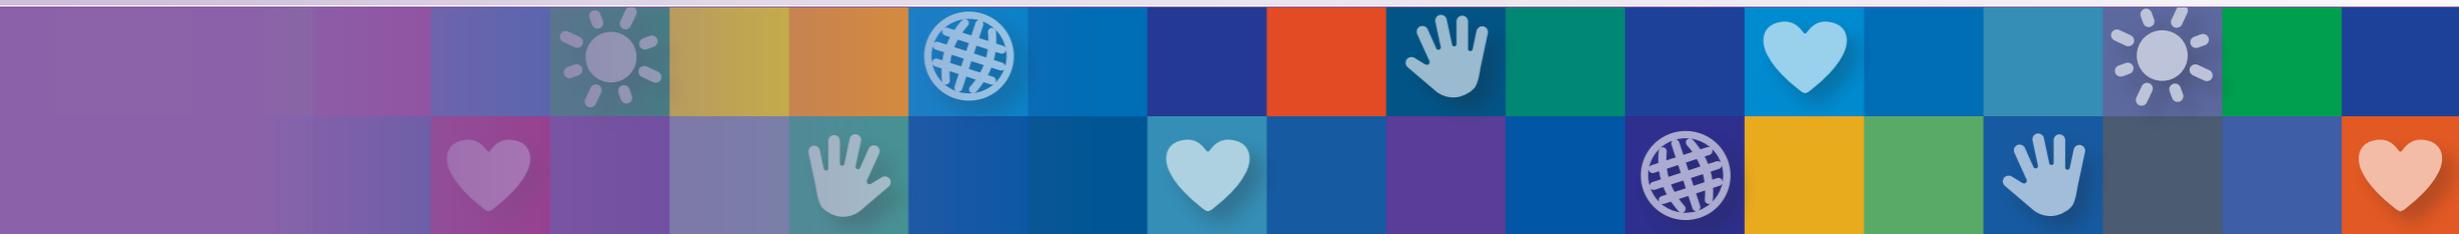

- A Social Story for Children 5 Years and Older

BARBARA WOODWARD LIPS
PATIENT EDUCATION CENTER

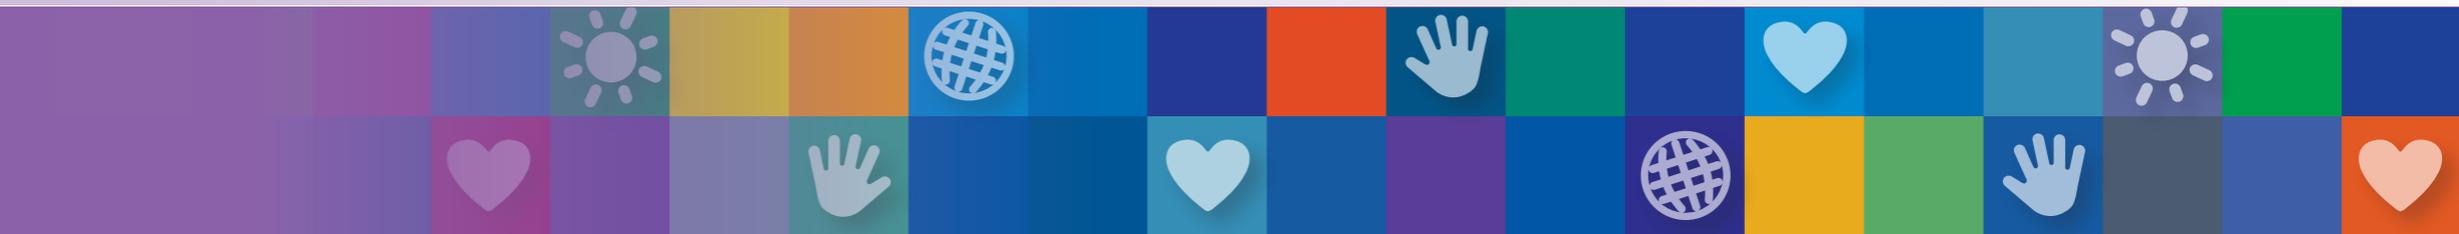

I am going to visit the Mayo Clinic.

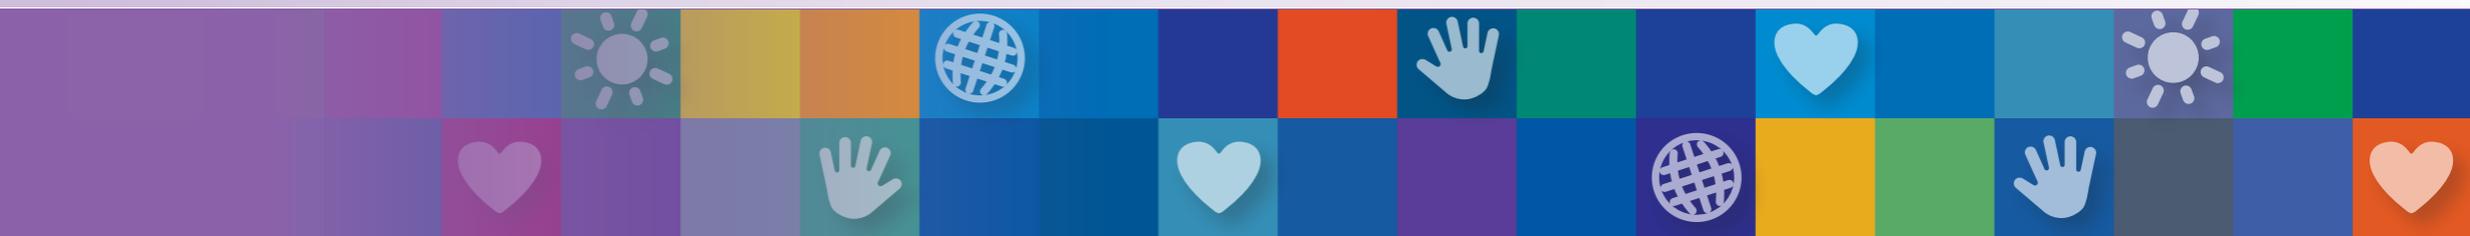

I will go to the lobby, check in and wait for my name to be called. I can watch the T.V., read, or play quietly.

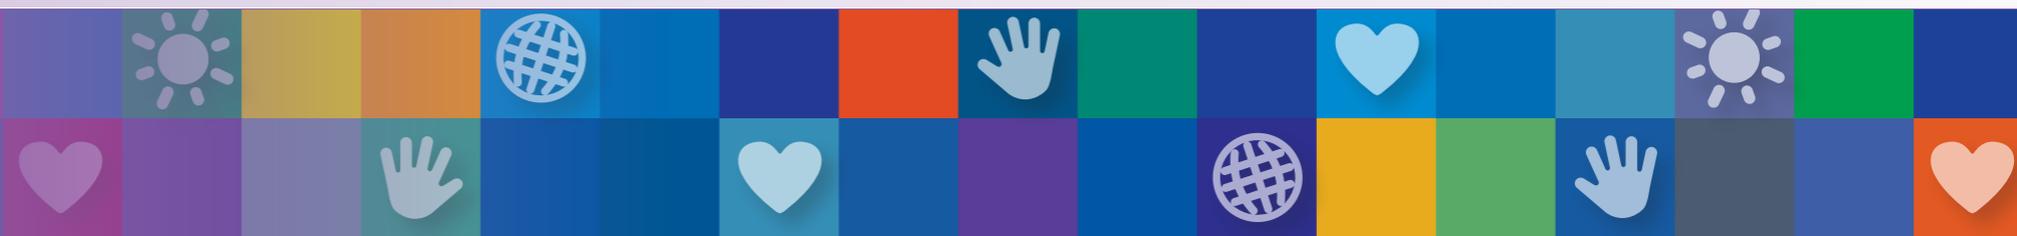

The doctor's helper will call my name and will get my height, weight and blood pressure.

I will wait in a room until the doctor comes.

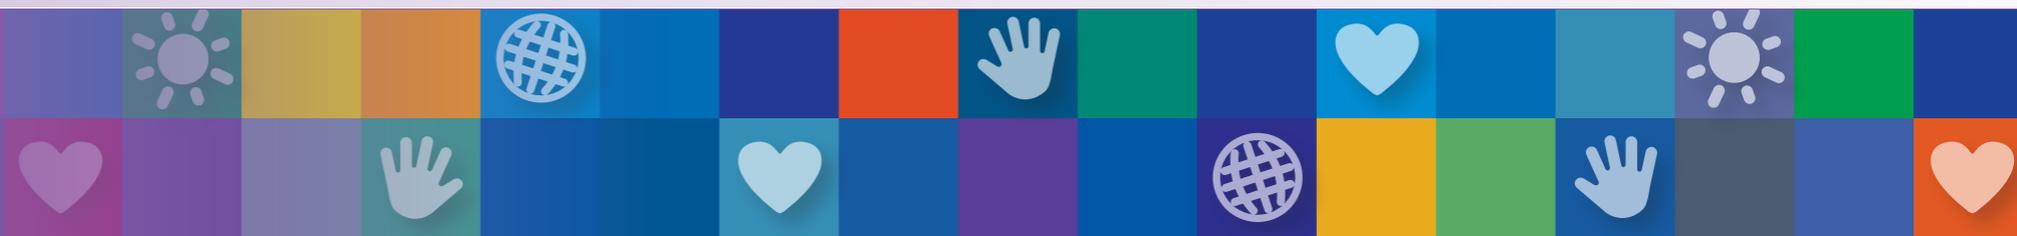

Dr. Howie

Dr. Katusic

**I will meet Dr. Howie
or Dr. Katusic**

Annie

Aggie

Kari

Kristen

Becky

Kelly

I will also meet nurse Annie, nurse Aggie, nurse Kari or nurse Kristen. I will also meet social workers Becky or Kelly.

They will not give shots. 😊

Dr. Howie or Dr. Katusic might look at my body to make sure it is healthy. The doctor may want to see me walk around and may tap on my knee with a small tool.

I might play, look at books, and talk to the doctor.

I will meet Dr. Huebner, she is called a neuropsychologist.

I might play games, look at books and she may ask me some questions. It is like a day at school.

I may need to get my blood drawn to make sure I am healthy. The lab helper may ask me to push up my sleeve and may put a band around my arm. The band will squeeze my arm like a hug.

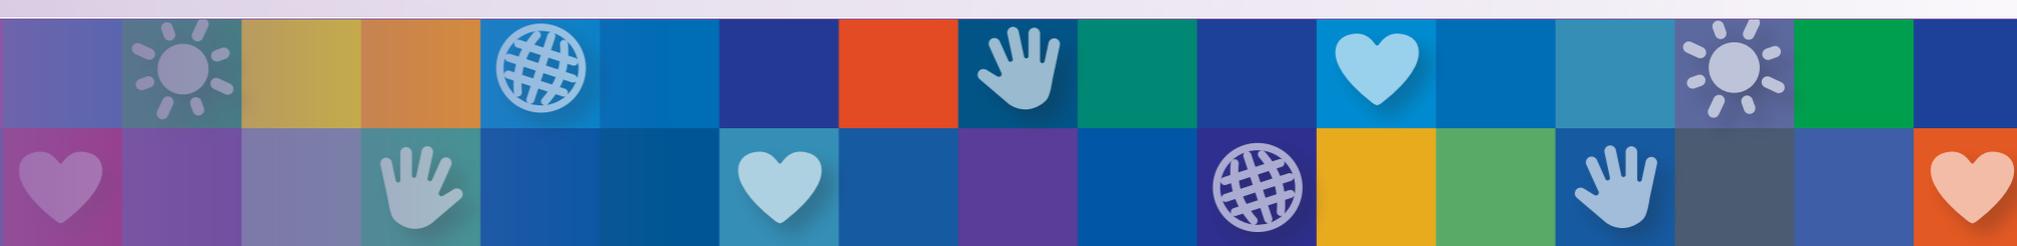

They will use a needle that may feel like a poke. I will try to stay very still. While the lab helper is doing this, I can look at a book, sing a song, or think about something else.

When I am finished, the lab helper may put a bandage on my arm.

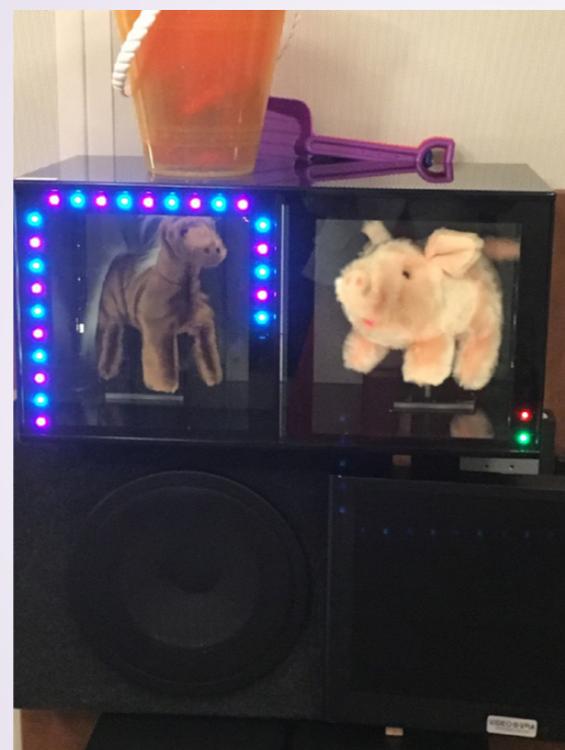

**When the lab helper is finished,
I can pick a treat from the prize
bucket!**

I may to go to audiology to get my hearing checked. They use very special headphones so kids can hear lots of different sounds.

The Audiologist has special tools to make sure my ears are working. I might get to play a game with toy frogs.

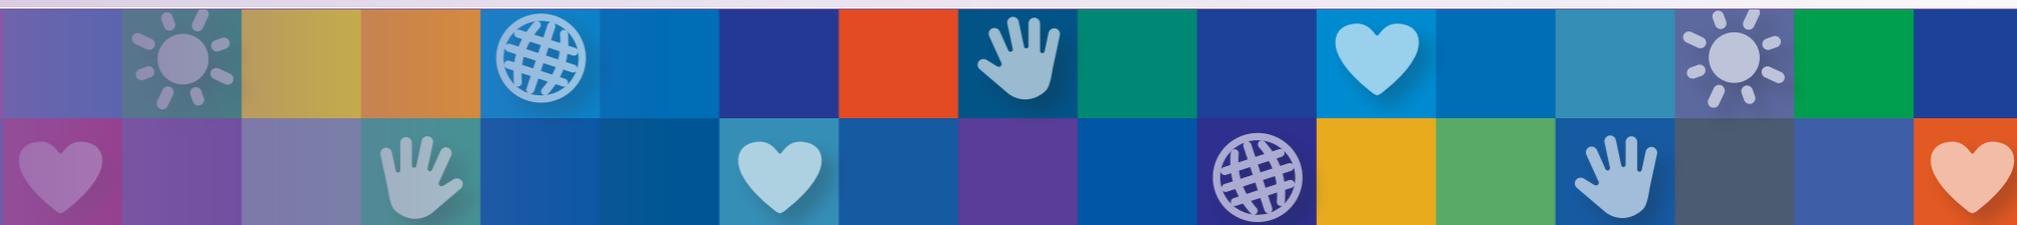

The doctor might want to talk to my family. I can sit quietly and color, read or play quietly.

**When I am done I will say
goodbye. I might be able to pick
out a sticker before I leave.**
