Minnesota law requires primary care and pediatric clinics to annually post the following information for the top 25 most commonly billed services priced over $25, including the top 10 Evaluation and Management and Preventive Medicine services. Mayo Clinic supports the intent of this law to educate patients on the cost of health care and the patient financial responsibilities. Mayo Clinic can provide patient estimates for services to be performed. The amounts posted below do not reflect the amount(s) each clinic patient will pay for the services listed. Depending on your health insurance, this hospital-based clinic may charge a separate facility fee, which might result in higher out-of-pocket expense. For specific information about the amount you will owe for the services you receive, contact the Patient Estimating Service if you have questions about whether you should anticipate seeing any of these charges on your upcoming visit. Office hours for Patient Estimating Service staff are 8 am to 5 pm, Monday through Friday. Phone: 844-312-8263.

Charges represent the standard amount a clinic bills for a service. For most patients, clinics get paid an amount well below the listed charge. Patients covered by commercial health insurance or a Medicare Advantage plan: Your health insurance company has likely negotiated a discount or contracted rate for each service. Your health insurance company’s negotiated price might be higher or lower than the average commercial payment amount listed above.
